

HOTEL METROPOLE
MONTE-CARLO

Givenchy Le Makeup Event

Discover the power of colour with Givenchy's Le Make-up collection for winter 2021

The Spa Metropole by Givenchy will have the privilege of hosting Gunther Hilgartner, **Givenchy's international makeup artist, on Thursday 25 November from 10am to 6pm**. Gunther Hilgartner attended the prestigious Jean d'Estrées make-up school in Paris and has been an international make-up artist for Givenchy for over 25 years. He started working with the amazing Audrey Hepburn and regularly worked with Monsieur Hubert de Givenchy. He specialises in catwalk make-up as well as numerous film and television projects. When the house launched its make-up collection, he was attracted by the simplicity of classic and sophisticated products.

His philosophy, his influences:

According to Gunther Hilgartner, make-up should reveal a woman's natural beauty and radiance. His artistic imprint, born from the meeting of multiple looks, and his unique art of mixing classic beauty and avant-garde make-up make him one of Givenchy's major artists.

"For me, beauty is simplicity and a smile. Every woman has something that makes her unique, so the idea is to highlight it, add light, fresh makeup and a bright smile, and voila!"

You can already book your encounter and make-up session with Gunther Hilgartner.

The Spa teams will welcome you by appointment only:

About the Spa Metropole by Givenchy:**Spa Metropole by Givenchy, the luxury of pampering yourself**

Opened in May 2017, third Spa by Givenchy in the world was designed by interior architect Didier Gomez to reflect the House's sophistication and modernity down to every last detail. The entrance sets the tone with a marble finish and proportions that are accentuated by graphic and sleek black lines. Contemporary materials can be found alongside a digital green wall throughout the interior, for ultimate serenity. The ten treatment rooms are all decorated in subtle shades of white, with embossed walls that evoke the lace of Haute Couture dresses. These include a double suite and a single suite equipped with a bath and a private hammam. The Spa offers a "Heat Experience" package, which includes the sauna, hammam, caldarium, ice fountain and sensory showers. It also has a gym offering the latest equipment (Technogym, Kinesis Personal, Kinesis Stations) as well as a Pedi:Mani:Cure studio by Bastien Gonzalez. The Spa's soundtrack was created by Béatrice Ardisson to accompany and personalise treatments by allowing clients to choose a playlist based on their musical preferences. Finally, a dedicated Givenchy Beauty store brings together all the brand's products, including makeup, skincare and fragrances. The exclusive perfumes "La Collection Particulière" made their debut here in Monaco in 2021.
